

Esdec Solar Group expands into Southern Europe with the acquisition of Sunfer Energy

16 January 2023, Deventer– Esdec Solar Group B.V. (Esdec), a leading global player in rooftop solar mounting systems, today announced the acquisition of Sunfer Energy (Sunfer). Sunfer is dedicated to the design, development, and manufacturing of residential rooftop solar mounting systems.

Founded in 1999, Sunfer has the support of a loyal installer base, a trusted distribution network and an experienced and committed team of more than 100 professionals. The company is based in Valencia, Spain and sells its systems worldwide in more than 30 countries. The acquisition of Sunfer contributes to Esdec Solar Group's further growth and footprint expansion plans.

Ivan Fernandez, CEO of Sunfer: *"At Sunfer we are focused on quality and offering a broad, innovative, sustainable product portfolio for the residential rooftop PV mounting systems market. I recognize and applaud Esdec's responsibility to work towards a greener future and enabling the energy transition, putting solar on every rooftop. I am confident that, with the support of Esdec, we can accelerate the growth of our business successfully in a sustainable manner."*

Stijn Vos, CEO of Esdec commented: *"I am very impressed how Sunfer was able to build and expand its operations under the leadership of Ivan Fernandez. With their experienced and committed team, they developed an attractive proposition with a broad portfolio of easy to install products in the mounting systems field. Their broad operational set-up and the worldwide sales apparatus provides excellent expansion potential in Europe and beyond. On behalf of the management team, I would like to welcome all Sunfer employees to the Esdec family, we are looking forward to combining our expertise and systems and enable access in new regions with a broadened product portfolio."*

About Esdec Solar Group

Esdec is a leading developer and distributor of professional rooftop solar racking and mounting systems and solutions for both residential and commercial roofs. Developed for installers, by installers, its in-house R&D team has simplified installations with some of the fastest, most economical solutions on the market. Production is outsourced to third parties, after which the systems are assembled and distributed to wholesalers, EPC contractors, solar integrators or installers directly. For more information, visit www.esdec-solargroup.com.

About Sunfer Energy

Sunfer Energy is exclusively dedicated to the design, calculation and manufacturing of residential mounting systems for solar panels on roofs. All the production materials Sunfer uses are 100% recyclable. Sunfer is headquartered in Valencia, Spain where the set-up of production, assembling, packaging, and warehousing are based as well. The company was founded in 1999 and has a team of more than 100 employees. Sunfer products are sold worldwide, in more than 30 countries. For more information, visit www.sunfer-energy.com
